

INDEX.

Page.	Page.
Abbe, Prof. Cleveland. (Notes by the Editor.)	
Fresh light on the Antarctic (Louis Bernacchi).....	2, 63, 110, 158, 246, 294
Pamphlets relative to Wetterschiessen.....	342, 393, 433, 474
The third international congress on hail shooting.....	
General report on hail shooting presented to the congress at Lyons (J. R. Plumandon, translation).....	
Reply to Professor Newcomb.....	
Prize for pressure anemometer.....	
Back numbers of the Review wanted.....	
Pernier's meteorological optics.....	
Second Mexican Congress of Meteorology.....	
Graduate study at Washington.....	
Jamaica Meteorological Service.....	
Noises attending the eruption of Mount Pelee.....	
Science in poetry (Allen Townsend).....	
Meteorological observations by travelers.....	
Back numbers of the Monthly Weather Review.....	
Apparatus for registering thunderstorms (G. J. Symons, Fenyl, Schreiber).....	
Lightning recorder (F. L. Odenbach).....	
Radioactive rain (C. T. R. Wilson).....	
On the altitude of the aurora.....	
Sea temperature and shore climate (W. N. Shaw).....	
Trees as forecasters of rain (A. F. Woods).....	
Meteorology in Argentina (W. G. Davis).....	
The variations of the temperature of the free air at great altitudes (L. T. de Bort).....	
Charting simultaneous observations.....	
The season of vegetation.....	
Volcanic dust (M. B. Stubbs).....	
The variation of terrestrial gravity over the ocean (F. R. Helmert).....	
A meteorological library.....	
Experimental agriculture at meteorological stations.....	
Mountain stations for meteorology (Sir Arthur Mitchell).....	
Weather fixes train loads.....	
A comparison with the barometric standard of Costa Rica.....	
Physics and meteorology (Prof. F. W. Very, Prof. J. Willard Gibbs, Prof. J. S. Ames, Dr. Edgar Buckingham, Prof. Ernest Merritt).....	
Meteorology at the British Association, Belfast, September, 1902 (Prof. Arthur Schuster).....	
Weather Bureau men as instructors in meteorology (W. H. Alexander, W. A. Shaw).....	
John T. Probert.....	
Heinrich Wild.....	
Señor Augustin M. Chaves.....	
Weather Bureau men as instructors in meteorology (H. W. Richardson, J. H. Scarr, J. R. Weeks).....	
Back numbers of the Monthly Weather Review.....	
Waterspout at Cape May, N. J. (H. A. McNally).....	
Severe hailstorm at St. Louis, Mo. (B. J. Hyatt).....	
Volcanic and atmospheric phenomena (Hermann E. Hobbs, E. C. Thompson, D. Budge).....	
Robert Rubenson.....	
Tromholt's catalogue of Norwegian auroras (Sophus Tromholt, J. Fr. Schroeter).....	
Maryland climatology (O. L. Fassig).....	
Weather Bureau men as instructors (J. R. Weeks, C. Stewart, J. B. Marbury).....	
Australian droughts and the moon (H. C. Russell).....	
Shadow bands; scintillation; interference bands (V. Ventosa, F. H. Bigelow, A. E. Douglass).....	
Meteorological stations in Africa.....	
Analogous storms.....	
Serial numbers for Weather Bureau publications.....	
Meteorology at the American Association.....	
The Béquerec rays in meteorology (J. J. Thomson).....	
Weather Bureau men as instructors (Ford A. Carpenter).....	
Abbott, C. G., the relation of the sun-spot cycle to meteorology.....	
Alexander, W. H., the climatology and water power of Costa Rica.....	
Allan, S. J., radioactivity of freshly fallen snow.....	
Allen, Townsend, science in poetry.....	
Ames, Prof. J. S., physics and meteorology.....	
Angot, Alfred, charting rainfall for fundamental periods.....	
Baddeley, P. F. H., dancing dervishes or dust whirls.....	
Beals, E. A., forecast district.....	31
Bentley, Wilson A., studies among the snow crystals during the winter of 1901-2, with additional data collected during previous winters (22 plates).....	33
Bergholz, Prof. Dr. Paul, the hurricanes of the far east.....	35
Bernacchi, Louis, fresh light on the Antarctic.....	128
Berry, James, Climate and Crop Service. (<i>See</i> Table of Contents). Snowfall and water supply.....	130
Besson, Louis, the circumhorizontal arc.....	131
Bezold, Prof. Dr. W. von, the international aeronautical congress at Berlin.....	132
Bigelow, Prof. F. H., studies on the statics and kinematics of the atmosphere in the United States: I. A new barometric system for the United States, Canada and the West Indies.....	133
II. Method of observing and discussing the motions of the atmosphere.....	269
III. The observed circulation of the atmosphere in the high and low areas.....	270
IV. Review of Ferrel's and Oberbeck's theories of the local and the general circulations.....	271
V. Relations between the general circulation and the cyclones and anticyclones.....	313
VI. Certain mathematical formulæ useful in meteorological discussions.....	313
VII. A contribution to cosmical meteorology.....	313
Hann's meteorology.....	369
The variation of the diurnal range of temperature with the latitude and locality.....	369
Studies on the meteorological effects of the solar and terrestrial physical processes. The semidiurnal periods in the earth's atmosphere.....	370
The first national meteorological congress of Mexico.....	410
Brandenburg, F. H., Denver forecast district.....	410
2, 62, 110, 158, 246, 294	
341, 393, 434, 474	
Brewer, W. H., rainfall and forest growth.....	444
Briggs, Dr. Lyman J., ground temperature observations at St. Ignatius College, Cleveland, Ohio.....	445
Buchan, Alexander, construction of rainfall charts.....	445
Dancing dervishes or dust whirls.....	448
Buckingham, Dr. Edgar, physics and meteorology.....	450
Carroll, D. J., death of Samuel B. Pfanner.....	450
Caswell, Rev. Robert C., dust storm and mud shower, April 11, 1902.....	451
Cline, I. M., New Orleans forecast district.....	451
2, 62, 110, 158, 246, 294	
341, 393, 433, 474	
Coan, Titus Munson, M. A., medical climatology in Hawaii.....	487
Cook, S. R., The permanency of planetary atmospheres according to the kinetic theory of gases.....	487
Cousins, H. H., meteorological conditions following the St. Vincent and Martinique eruptions.....	487
Climatological data for Jamaica.....	488
Cox, Prof. H. J., Chicago forecast district.....	523
2, 62, 110, 246, 294	
393, 434, 474	
Cronk, J. W., the Red River floods of November and December, 1902.....	524
Curtis, George E., rainfall on Mount Washington.....	524
Cuthbertson, David, fog and frost formation.....	525
Davis, T. H., the winds and rainfall of New Haven.....	526
Annual wind resultants.....	526
Davis, Walter G., meteorology in Argentina.....	527
De Riemer, Alicia, meteorology and the schools.....	528
Duenckel, F. W., abstract of a comparison of the minimum temperatures recorded at the United States Weather Bureau and the Forest Park meteorological observatories, St. Louis, Mo., for the year 1891.....	528
577	
577	
579	
178	
Edwards, R. A., the meteorological service of Servia.....	529
Eells, Rev. M., a dark day in Washington.....	576
Elliot, John, a history of meteorological work in India.....	576
Elmer, A. D., cloudbursts.....	269
Emery, S. C., a Mississippi tornado.....	446
237	
Fassig, O. L., a waterspout at close range.....	577
Fernow, B. E., rainfall and forests.....	316
224, 225, 236
